PARK PROGRESS

The improvements at Rossy Park are well on their way. Two fire pits have been placed in the park and there is a small stack of firewood for your use. The cement floor and plumbing for the bathroom is complete and soon the walls will be going up. The playground equipment that the town purchased has been installed and a family donated some from their yard to the park also. The grill will be complete before next season. To celebrate the improvements at the park – a community picnic will be held September 20th around 5:00 pm. We are asking that everyone bring their own meat for grilling, a dish to pass, and lawn chairs if needed. Plastic silverware, paper plates, and a jug of cold drinks will be provided.

As always we are open to contributions to any of these projects!

FALL CLEAN UP

With heartfelt thanks to the Letcher Community Club, we will have a fall clean up day once again. Dumpsters will be in their normal spot from Thursday, September 4th through Tuesday,

September 9th. Remember not tires, no batteries, no appliances, no trees please! Angie and Bridgett, of ABC will be accepting appliances. If you need help getting something hauled (or with clean up), feel free to contact us at 248-2242 for assistance. We are hoping to have volunteers on Saturday, September 6th to assist with clean up.

CONGRATULATIONS!

Letcher resident Denny Robinson was named Mitchell Realtor of the Year and will advance to state competition. Mr. Robinson is a broker/manager for Fischer Rounds and Letcher is very proud to have him as a resident!

ECO DEVELOPMENT

The newly formed Economic Development Committee (a branch of the Letcher Community Development Foundation has had their first meetings with David Lambert of the Mitchell Area Development Corporation. They have been handed their first assignment and committee members worked very hard to have a response within ten days! We are so very fortunate to have people

with a vision for Letcher's future on this committee.

COMMUNITY USE

The Sanborn Central Horizons II group has graduated! Upon completion of this program the three communities (Artesian, Forestburg, Letcher) received the final \$8500 of the \$10,000. Each community has its own plan for putting this money to use in the fight against poverty. The group was also given a laptop, printer, and digital camera to be utilized by anyone in our communities. If you would like to "borrow" any of these please contact Mary Ackman at 248-2242 or Tiffany Hoffman at 248-2235. Each community was also given a pair of signs advertising that we are a "Horizons Community". Letcher's signs will be placed on the Community Center and the Rossy Park Bathhouse.

MARY'S PRETTIES

Once again the Town of Letcher owes a huge "THANK YOU!" to the Lucketts for their tireless care of our beautiful flowers. They can often be seen hauling water, trimming, and pruning!
